### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Coulman on 1/6/06.

The application has been amended as follows:

**In the claims:**

Claims 33-36 have been canceled.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

With regard to claim 1, the examiner agrees with applicant's arguments set forth in the appeal brief of 10/31/05, page 12 in that Ota does not teach a two-part adhesive disposed between said substrate and said substrate receiving surface as claimed in independent claim 1. Furthermore, Ota is drawn to an inkjet head and Ishida is drawn to a two-component epoxy resin composition comprising isophorone diamine (isophorone diamine is another name for 3-aminomethyl-3,5,5-trimethyl-1-cyclohexylamine) for use in wet mortar and concrete and thus the two references are not combinable because one of ordinary skill in the art would not have been motivated to incorporate an adhesive for use in wet mortar and concrete in an inkjet head.

Art Unit: 1772

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
